

LEFR CAB APPROVAL FORM

FEATURE/SERVICE (NAME)	Internal Routing to Return the Json Report for Mashreq Channel ID 8	RELEASE PRIORITY (HIGH, LOW, MEDIUM)	HIGH
		JIRA TICKET	
		REQUIREMENT TYPE (CLIENT OR INTERNAL)	Client
DESCRIPTION OF RELEASE	Change Description: This change involves modifying the internal ocelot routing in the Gateway service for /rhapi/Onboard/ConfirmDataElementEnhanced Endpoint to return the Json Report instead of XML Report. Reason for Change: The client (mashreq CIBG Channel) has requested this change to address an issue that happened as a part of the recent migration to ICP, where the clients were calling incorrect URL and as a result the service was returning an XML report instead of a JSON report. Due to a change freeze on their side, the client is unable to implement this adjustment themselves. Impact Assessment: No Impact is expected as this URL is not used by any other channel from Mashreq other than CIBG.

LEFR CAB APPROVAL FORM

FEATURE/SERVICE (NAME)	RHServ.Certificate 2.3.2		RELEASE PRIORITY (HIGH, LOW, MEDIUM)	High
			REQUIREMENT TYPE (CLIENT OR INTERNAL)	Telecom Client
DESCRIPTION OF CHANGE	Feature - Update JSON Certificate Data with Title for Telecom Clients. - Update Certificate Data with Entry Date for Telecom Clients. To implement this feature of mapping Traveldate.EntryDate and Title field from CDE Json report to SSMS response, dependent RHServ Certificate service is to be deployed.			
PLANNED CHANGE DATE	09/05/2025	PLANNED DEPLOYMENT DATE	09/05/2025	
RELEASED BY	Willca Stephen	Change Implemented By	Shereef CK	
DEV APPROVED BY	Shareena A	TO BE DEPLOYED AT(SITE)	Prod – Telecom Clients Only	
UAT APPROVED DATE	08/05/2025			
DEVELOPER	Ramees MPP	TESTER	Salana Chandran	
COMMENTS IF ANY (BY RELEASE ANALYST)	During the sanity check in production by Shereef, we observed the following issue: the residencyType.code value is enclosed in double quotes (") instead of single quotes ('). Say, <pre>"residencyType">{ "code": "2",</pre> This change is available in client UAT, and the client did not report any integration issues.
