WHO WE ARE

PNI Logistics was founded in 2010 by Praveen Sathyan and Ilse Van der borght with a vision to set new standards in reliability and excellence. Specializing in breakbulk, RoRo, heavy lift, and oversized cargo, we deliver seamless solutions by sea, air, and land. With 25+ years of expertise, we collaborate with trusted global partners to provide cost-effective, reliable transport. ISO-certified and committed to safety, we ensure every shipment meets the highest standards. As a trusted EPC logistics vendor, we tailor solutions for complex projects, ensuring efficient, on-time deliveries worldwide.

DELIVERING RELIABLE SOLUTIONS AND DRIVING INNOVATION TO MAKE LOGISTICS SMOOTHER AND MORE EFFICIENT.

FOUNDER'S MESSAGE

"At PNI Logistics, we deliver seamless, cost-effective logistics with a focus on safety, efficiency, and customer satisfaction. Your success is our priority, and we take pride in keeping your supply chain moving smoothly around the world."

SPECIALISED LOGISTICS SERVICES

At PNI Logistics, we provide tailor-made logistics solutions according to the unique nature of your cargo. Our expertise ensures that even the most complex shipments are handled with precision, efficiency, and care.

CHARTERING SERVICES

- Breakbulk chartering (partial & full charter)
- Roll-on/roll-off (RoRo) charter
- Heavy lift chartering (partial & full charter)
- Barge & tug charter
- Air charter (partial & full charter)

SPECIALISED LOGISTICS SERVICES

SPECIALISED HANDLING

- Industrial packing
- Sea fastening & lashing in containers
- Industrial relocations & container conversions
- Jacking, skidding & heavy equipment handling
- Customised fabrication of supports (saddles & beams)
- Specialized transportation

SPECIALISED LOGISTICS SERVICES

PROJECT MANAGEMENT AND COORDINATION

- Pre-inspection at site
- Loading and transport analysis
- Port/site coordination & supervision load balancing with HSSE-compliant lashing
- End-to-end cargo monitoring
- Port loading/offloading supervision position to the foundation

DOCUMENTATION AND COMPLIANCE

- Customs documentation and permissions
- Vessel coordination and loadout planning
- Marine insurance and survey assistance
- Compliance with destination regulations for final delivery

LASHING, SECURING AND DUNNAGE

CARGO HANDLING AND STABILITY

- Experienced rigging team for safe lifting and loading
- Direct, over-the-top, and loop lashing based on cargo size & weight Center of gravity considerations for maximum stability
- Bracing and choking to prevent cargo movement stability verification and wright distribution for heavy shipment

LASHING AND SECURING

- Proper lashing to reduce effects of forces
- Securing cargo on flat rack containers using chains, cargo belts, and load binders Wooden dunnage & support frames to absorb shocks & vibrations

COMPLIANCE AND CERTIFICATION

- Lashing certification by approved marine surveyors
- Tailored solutions based on specific shipment requirements

IMPACT REDUCTION AND CARGO PROTECTION

- Dunnage bags used to fill gaps, preventing cargo from shifting
- Absorbs shocks, ensuring cargo safety during transit

JACKING AND SKIDDING

When space constraints, height or ground pressure restrictions prevent the use of cranes or forklifts, our jacking & skidding method provides a safe, precise, and cost-effective alternative for lifting and moving heavy cargo.

At PNI Logistics, we utilize a fully tested and certified range of jacking and skidding equipment, operated by our highly trained team to ensure seamless execution in even the most challenging environments.

INDUSTRIAL PACKING

We provide durable wooden packaging, including heavy-duty boxes, crates, honeycomb packing and pallets, designed for secure transport by sea, air, and road.

- Customised fabrication: on-site, tailor-made wooden boxes to suit cargo needs.
- Ultimate cargo protection: foam, thermocol, bubble wrap, and PVC foam safeguard fragile items like glass, electronics, and photo frames from shocks.
- ISPM 15 certified wood: fumigated & non-fumigated options available.
- Robust construction: plywood, steel corner blocks, and pneumatic gun nails for maximum durability.

CONTAINER CONVERSIONS

We transform standard shipping containers into fully functional spaces tailored to your needs. Our versatile solutions include:

- **Site offices** – efficient workspaces for on-site operations
- **Accommodation units** – comfortable living spaces for staff
- **Prayer rooms** – dedicated spaces for spiritual needs
- **Pantry rooms** – well-equipped dining and refreshment areas
- **Storage units** – secure, weatherproof storage solutions
- **File racks & shelves** – organized spaces for document management

OPEN YARD STORAGE

PNI Logistics provides secure open yard storage within and outside free zones, catering to industries such as heavy equipment, oil & gas, and power & energy. Our facilities ensure safe and efficient storage supporting smooth end-to-end logistics for specialised and oversized cargo.

With strategic locations and expert handling, we ensure your cargo is stored safely and ready for effortless transport.

LAND TRANSPORT

We specialise in transporting oversized, heavyweight, and complex cargo around the world, utilizing a diverse fleet including:

- Flat bed & low bed trailers
- Heavy-duty low beds multi-axle trailers
- Extendable trailers
- Semi-modular & modular trailers
- Self-propelled modular transporters (SPMTs)
- Dolly Transport

Ensuring safe, efficient, and reliable land transport for your most challenging cargo needs.

PROJECTS HANDLED

Heat exchangers from Jubail to Türkmenbaşy

Oil and gas skids for Amazon Energy Nigeria

13 units of pipe racks for FPSO vessel by barge operation

140mt plate bending machine Sohar to Mundra

PROJECTS HANDLED

180MT spud to Singapore and cross-loading on barge by floating crane to Batam

Passenger boarding bridges from Gijon to Tabuk, Bahrain and Duqm

Local transportation and offloading to the foundation by skidding method for heavy duty generators

PROJECTS HANDLED

PNI stevedoring handles earthmoving equipment mobilization from Maldives anchorage to UAE and Qatar

Sea fastening and vessel ballasting of concrete mattresses for subsea cable project

Mobilization of 140MT power plant from UAE to Onne, Nigeria

PROJECTS HANDLED

200 000 FT coated pipes local handling and delivery within UAE

Factory shifting inclusive of jacking and skidding

PROJECTS HANDLED

Transportation of 8.5m diameter flanges from Rizhao to UAE

PROJECTS HANDLED

30 000T steel plates from Korea to UAE

50m long dredging units from RAK to Flushing

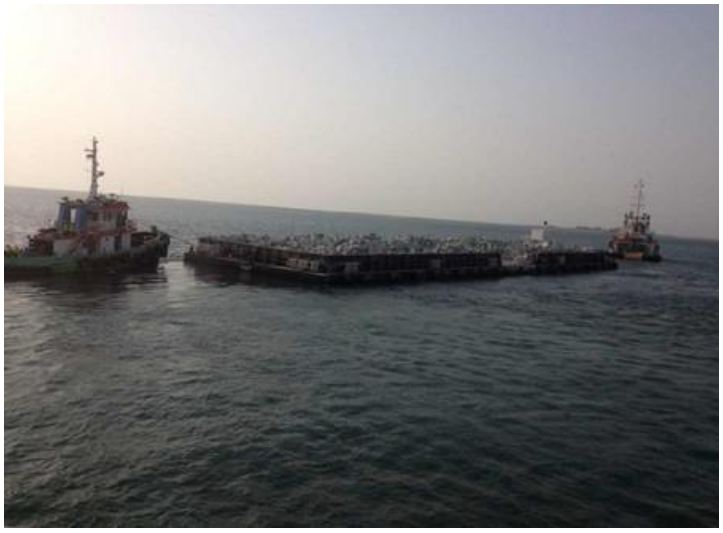

Aircraft model on chartered flight from Belgium to Dubai Air Show

PROJECTS HANDLED

Landing craft operation inside UAE waters

Full turn key projects for offshore location in Qatar by tug/barge combination

Mobilization of cement plant from UAE to Tunisia

PROJECTS HANDLED

90MT tugboat by container vessel to Jeddah

PROJECTS HANDLED

25m long units local handling and transport to Abu Dhabi CICPA area

PROJECTS HANDLED

Shell plates transport from UAE to Qatar

Transport of 5.5m wide Cometto trailer by using full support of multi-axle trailer

Turnkey transport of 180MT underwater cable reel from Denmark to UAE, reloaded for offshore and empty return

PROJECTS HANDLED

300MT hammers to Singapore and Batam by heavy lift and barge operation including offloading by 650 MT crawler crane at private jetty

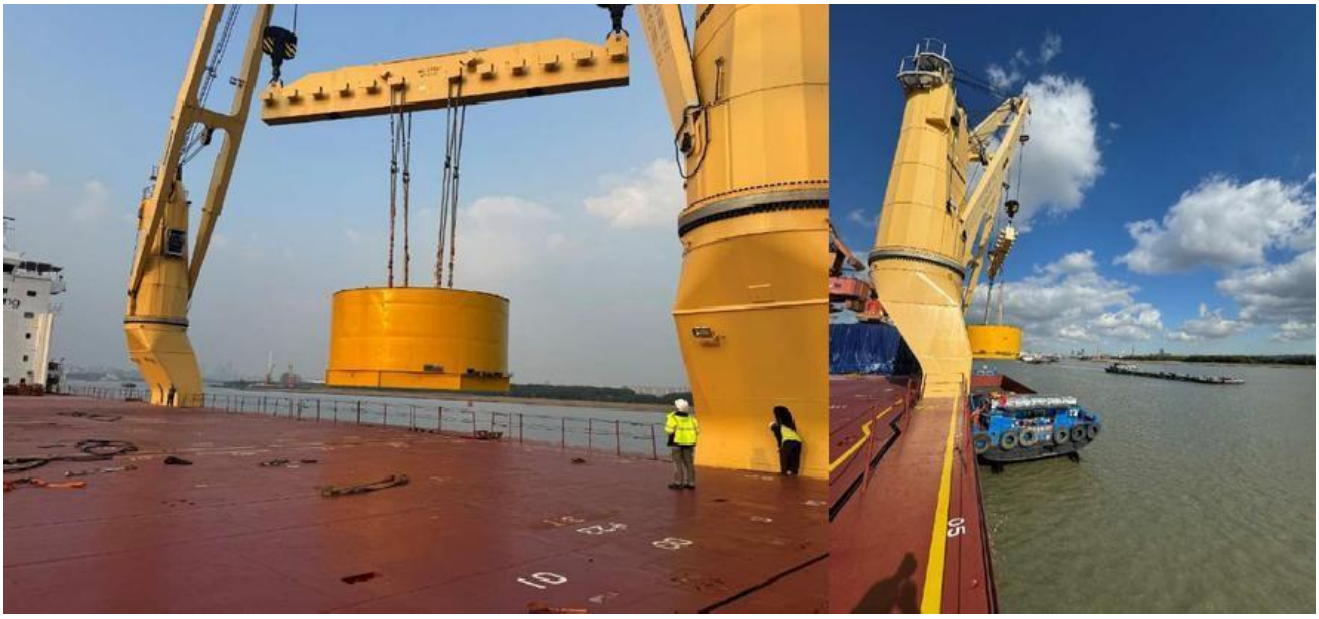

Foundation to foundation of gas tanks from Qatar to Czech Republic and return

24m long heat exchangers local delivery inside Ras Laffan

PROJECTS HANDLED

400MT FOC tanks from Shanghai to Ras Laffan

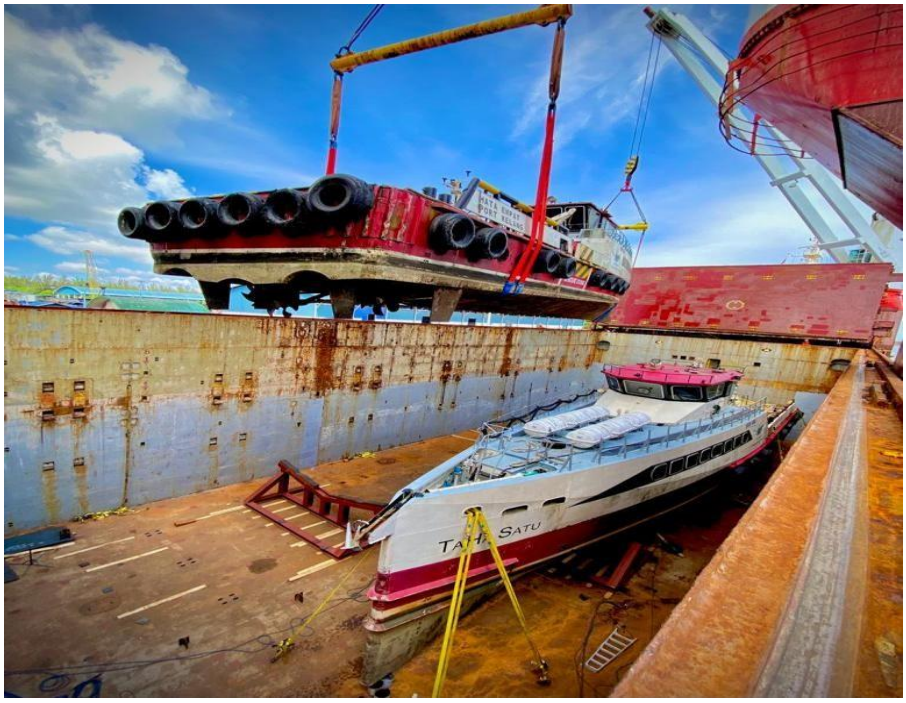

80MT generator transportation, offloading and positioning to the foundation

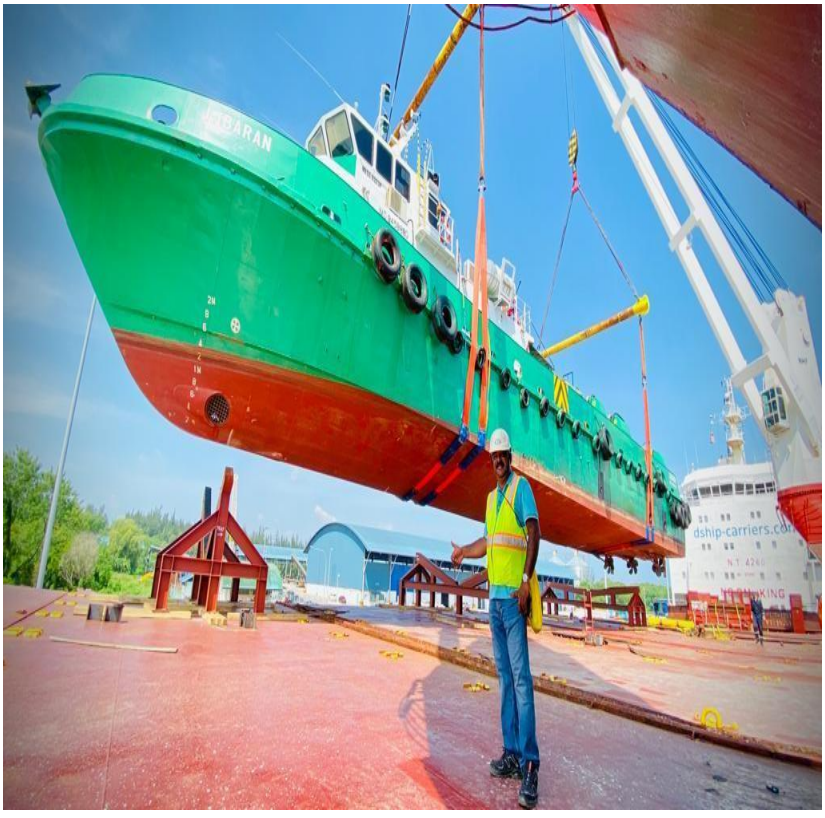

Cable reel transportation and positioning for despoiling at offroad location

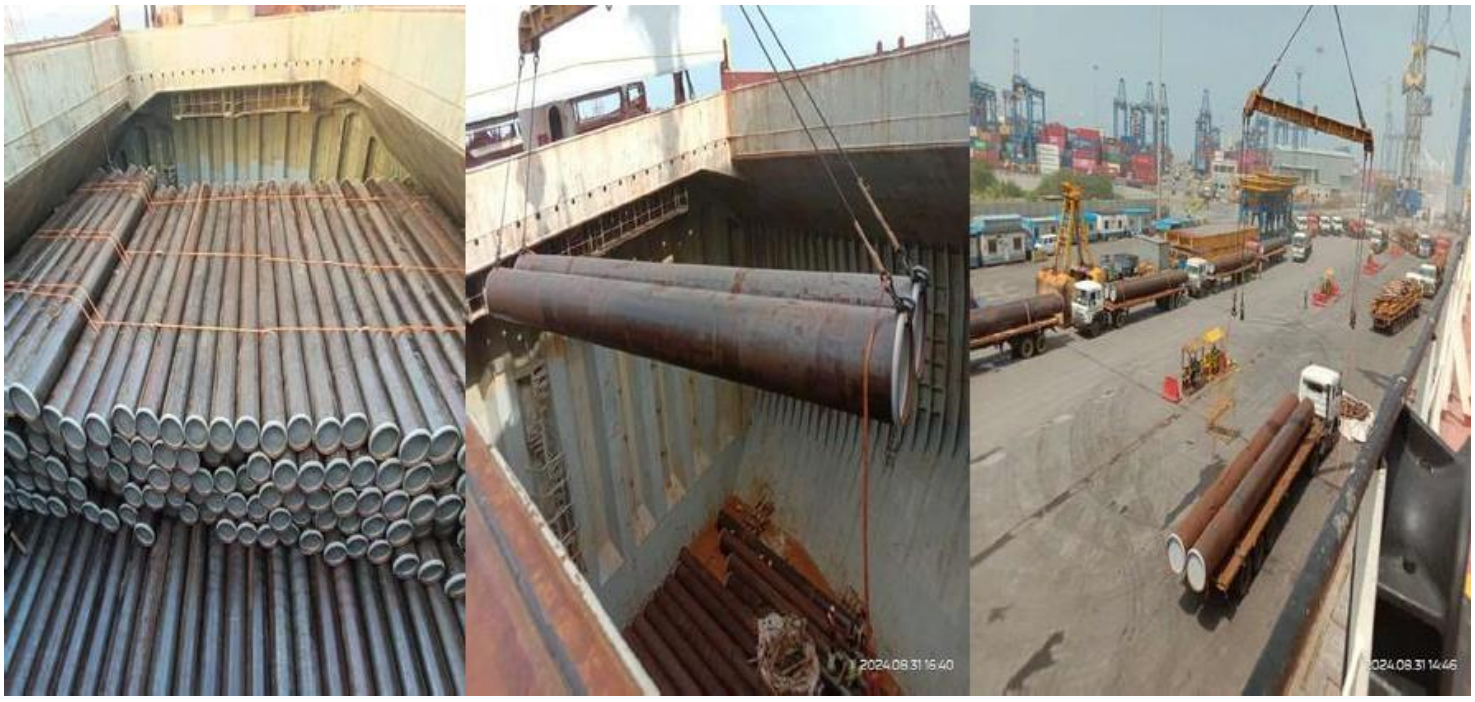

PROJECTS HANDLED

Bintulu to port Rashid- UAE
3 Utility and crew boats of 120 MT from water to water inclusive divers

PROJECTS HANDLED

Steel pipe handling at Abu Dhabi and delivery to coating facility

PROJECTS HANDLED

Yacht loading from Greece to UAE
