HBC	Internal in-House Training	
Project: Harrow School Abu Dhabi		Date: 15/05/2026
Site No: 353		Time: 3:30 PM
Location: Al Saadiyat Island – Abu Dhabi		Shift: Day ☐ Night ☐

TOPIC DISCUSSED

Personal Protective Equipment (PPE)

- Personal Protective Equipment is your last line of defense against workplace hazards. Whether you're dealing with falling objects, chemical splashes, or loud noise, PPE can save your health—or your life.
- Safety belt full body harness must be wearing above 1.8 mtr height and above.
- How wear safety belt full body harness with lanyard
- Always **inspect** PPE before use—check for cracks, tears, or wear.
- Safety helmet, shoe and coverall only issued in labor camps without letter.
- Do not allow any works at site without PPEs
- **Wear the right PPE** for the task. One size doesn't fit all hazards.
- Make sure PPE **fits properly** and is worn correctly.
- **Clean and store** PPE as instructed.
- **Replace** damaged or expired equipment immediately.
- **Head Protection:** Hard hats to prevent injuries from falling or flying objects.
- **Eye & Face Protection:** Safety goggles, face shields to guard against flying particles and splashes.
- **Hearing Protection:** Earplugs or earmuffs in noisy environments.
- **Respiratory Protection:** Masks or respirators for dusty or chemical-laden areas.
- **Hand Protection:** Gloves suited to the task (cut-resistant, chemical-resistant, etc.).
- **Foot Protection:** Steel-toe boots or non-slip shoes.
- Body Protection: Coveralls, high-visibility clothing, or chemical suits as needed.
- **Remember: PPE only works if you wear it—and wear it right.**
  Stay safe!
