About Us

Established in Abu Dhabi, United Arab Emirates; Bay Marine is a trusted provider of engineered marine, environmental, and safety solutions. We specialize in protecting coastlines, waterways, ports, harbors, marinas, and delicate marine ecosystems across the UAE and the broader Middle East

Operating under an ISO 9001 certified quality management system and holding ICV (In-Country Value) certification, we combine technical innovation with a commitment to local economic growth and sustainability. As the authorized UAE distributor for Tenyn Ocean aids to navigation (AtoN) products, we supply advanced buoys, beacons, and maritime signaling systems designed to maintain maximum safety and seamless navigation.

Who We Serve

- Ports and Harbours
- Maritime Authorities
- Marine Contractors
- Engineering Consultants
- Offshore oil and gas operators
- Environmental Agencies
- Private Marinas
- Hotels & Resorts

Brands We Serve

Tenyn Ocean

Our partnership with Tenyn Ocean adds UV stabilized polyethylene navigation marker buoys, steel buoys and solar marine lanterns to our product range for marine construction, ports, harbours, oil and gas applications

Seavoy

Bay Marine supply Seavoy, high performance environmental and safety solutions. Engineered for durability in the toughest conditions, Seavoy products help you manage marine projects with confidence and compliance

ResQ

Bay Marine is a premier supplier of professional ResQ life guard products across the UAE and Middle East, providing essential water safety solutions designed for durability and rapid response

Certifications

Product Segments

- Aids to Navigation (AtoN)
- Marine Demarcation
- Environmental Protection
- Inflatable Buoys and Fenders
- Mooring & Docking
- Lifeguard and Rescue

Meteorological Buoys

Polyethylene Marker Buoys

Bay Marine supply Tenyn Ocean navigation marker buoys that are rotationally moulded UV stabilized navigation marker buoys and foam filled. Tenyn Ocean have UV20 filter as standard, prolonging the color for many years, more than 10 years. All the buoys are manufactured as per IALA recommendation. The buoys are Linear Low Density Polyethylene (LLDPE) and internal components are stainless steel

- Material: Linear Low Density Polyethylene
- Foam filled
- UV-20 Color resistance
- As per IALA recommendation
- SS316 components
- Radar reflector
- IALA top mark
- Access ladder and safety cage

Model	Diameter
Sea Seal 60B	600 mm
Sea Seal 100B	1000 mm
Sea Seal 125C	1250 mm
Sea Seal 150C	1500 mm
Sea Seal 180B	1800 mm
Sea Seal 260A	2600 mm
Sea Seal 300A	3000 mm

Steel Buoys

Tenyn Ocean steel buoys represents the pinnacle of marine engineering, combining rugged CCSB shipbuilding structural steel. Designed for durability and precision, these steel buoys are the industry standard for reliable maritime navigation and monitoring

- Diameter: As per project requirements
- Material: Steel
- Painted as per IALA recommended color
- Radar reflector and IALA top mark
- Lifting and mooring eyes

Demarcation Buoys

The Seavoy demarcation buoys, a robust and highly effective single piece flotation device designed for marine area marking, navigation and identification in a wide range of water environments

The Seavoy demarcation buoys are manufactured using rotational moulding with UV stabilized polyethylene

- Navigational aids for channel marking
- Restricted zones and construction area marking
- Water recreation boundaries, such as swimming areas
- General waterway signage and demarcation

Add Ons

- Solar Marine Lantern
- Mooring System
- Signage Sticker
- Floating Demarcation Line

Navigation Beacons & Marker Poles

Bay Marine provides a comprehensive range of customizable fixed markers and navigation towers. Engineered to withstand the harshest maritime environments, our structures are available in stainless steel, mild steel, aluminum and polyethylene to ensure maximum durability and structural integrity

Applications

- Ports and Harbors
- Breakwaters
- Marinas
- Construction Sites
- Quay Walls

Solar Marine Lanterns

Tenyn Ocean self contained marine lanterns offer superior visibility and latest technology to guide safe navigation in water bodies.

Tenyn Ocean marine lanterns come in different visibility range and features including GPS synchronization, Bluetooth connectivity, GSM monitoring, Satellite monitoring, AIS, etc.

- High-efficiency luminous system
- Compact unit with in built solar panels and battery
- User adjustable IALA flash characteristics
- Plug in type battery for Alkaid series
- ON/OFF with a magnetic switch
- IP68 Waterproof
- GPS synchronization
- Bluetooth 5.2 connectivity
- Monitoring and Control (Optional)
- GSM Connectivity
- Satellite monitoring
- Automatic Identification System (AIS)

Model	Visibility Range
Alkaid 2A	Upto 3nm
Alkaid 3A	Upto 5nm
Alkaid 5C	Upto 8nm
Alkaid 7C	Upto 7nm
Alkaid 10A	Upto 10nm
Merak 11A	Upto 11nm
Merak 15A	Upto 15nm
Merak 18A	Upto 18nm

Silt Curtains

Bay Marine supplies silt/turbidity curtains for marine construction projects including ports, harbours, marinas, artificial islands, breakwater construction etc. The silt curtain is manufactured from superior quality components. We supply anchoring system based on the client requirements

Type	Model
Type 1	SC1
Type 2	SC2
Type 3	SC3
Type 4	SC4

Oil Spill Tray

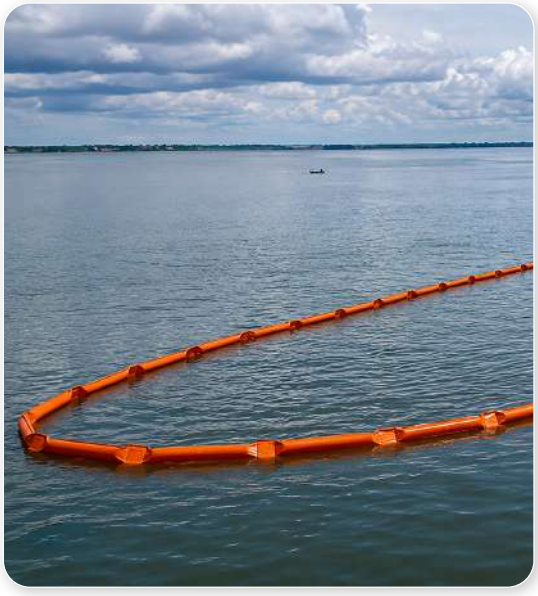

Bay Marine offers high quality oil spill trays, designed for efficient containment and collection of oil and fuel spills on surfaces such as docks, decks and storage areas. These trays provide a practical solution for managing minor spills and supporting environmental safety measures in ports, marinas, offshore facilities and industrial sites

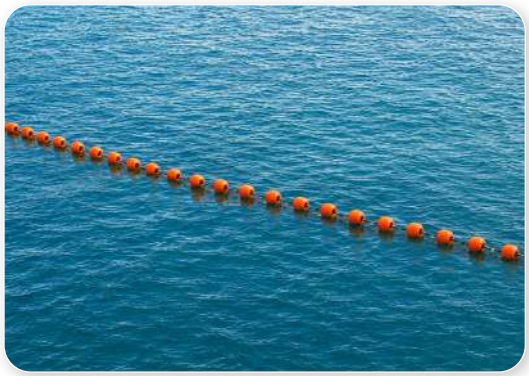

Oil Boom

Bay Marine supplies oil boom for marine construction projects including ports, harbours, marinas, artificial islands, breakwater construction etc. The oil boom is manufactured from superior quality components. We supply anchoring system based on the client requirements

Type	Model
Type 1	OB1
Type 2	OB2
Type 3	OB3

Bay Marine provides robust, high visibility marine demarcation solutions designed to mark safety zones across public beaches, commercial waterfronts, etc. Engineered to withstand demanding marine environments, our demarcation lines effectively isolate designated areas

Applications

- Swimming Area Demarcation
- Restricted Area Demarcation
- Construction Area Demarcation
- Intakes/Outfalls

Add On

- Signage Buoys
- Solar Marine Lanterns

Model	Description
Standard Type	EVA Floats
Inflatable Fenders	Polyform or similar fenders as Floats
Enhanced Type	Rotationally Moulded Polyethylene Floats

Polyform A Series Inflatable Buoys

Polyform A series buoys are used for Swimming area demarcation, boats, fishery, aquaculture and other marine demarcation applications

Models: A-0 | A-1 | A-2 | A-3 | A-4 | A-5 | A-6 | A-7

Polyform F Series Inflatable Fenders

Polyform F series Fenders are used for Swimming area demarcation, boats, fishery, aquaculture and other marine demarcation applications

Models: F-1 | F-2 | F-3 | F-4 | F-5 | F-6 | F-7 | F-8 | F-10 | F-11 | F-13

Mooring

Bay Marine provides high quality chains engineered for maximum strength and reliability across diverse maritime environments. This includes stud link anchors chains, open link mooring chains and specialized fittings manufactured to internationally recognized standards

Open Link Chain

Bay Marine supplies open link chains for versatile marine applications, including navigation aids and fendering systems

Stud Link Chain

Designed for heavy duty stability, stud link chains are available in different diameters

Options

- Black bitumen coated
- Hot dipped galvanized

Chain Fittings

- D End Shackles
- Kenter Shackles
- Forerunner Swivel

Docking

Bay Marine offers docking products engineered for reliable performance. Ideal for ports as well as offshore oil platforms including

Mooring Cleats

Cone Fender

Pontoons and Gangways

Pneumatic Fenders

Life Jacket

Bay Marine supplies dependable and well designed life jackets suitable for commercial, recreational, and offshore use, including SOLAS approved life vests for emergency situations. Designed for comfort and high visibility, our life jackets provide secure fastening, ease of movement, and enhanced safety for mariners, workers, and passengers in ports, harbors, offshore platforms, and marine construction sites

Life Buoy Ring

Bay Marine supplies durable and well built life buoys designed for emergency flotation and rescue operations in marine environments. These buoys are made from long lasting, water resistant materials and comply with international safety standards to ensure reliability in critical situations

Rescue Tube

RESQ Lifeguard Rescue Tube, a professional lifesaving device designed for lifeguards and water rescue teams. Available in 40 inch and 50 inch sizes, this rescue tube provides reliable flotation support during water rescue operations

Throw Bag

Bay Marine supplies reliable and durable throw bags designed for quick water rescues in marine and offshore environments. Each throw bag contains a strong, floating rescue rope for efficient and safe retrieval of individuals in distress.
