HATEEN GROUP OVERVIEW

Hateen Group is a leading group of companies with a long-standing and established reputation for serving the construction sector in the Middle East. The Group provides experienced expertise in MEP contracting, electrical switchgears and control systems, lighting solutions, trading of electrical accessories, building insulation, and waterproofing.

Through its subsidiary companies, Hateen Group has expanded its capabilities and service coverage across several major sectors of the construction industry. The Group combines technical expertise, experienced personnel, quality workmanship, and a commitment to client satisfaction.

HISTORY AND GROUP COMPANIES

Hateen Group commenced operations in 1993 with the establishment of Hateen Electrical and Sanitary Cont. Co. in Sharjah, under the patronage of Eng. Ahmed Ganem, Chairman. Through hard work, strategic development, and a performance-oriented approach to the growing construction industry, the Group has continued to expand and achieve milestones across its areas of operation.

The Group comprises the following subsidiary companies:

- Hateen Electrical and Sanitary Cont. Co.
- Hateen Electrical L.L.C. – Switchgears and Control Systems
- Hateen Lighting Trading Co.
- Hateen Electrical and Sanitary Contracting Co.
- Hateen Building Insulation and Waterproofing

VISION

Our vision is to become a regional leader in designing and executing complete electromechanical works associated with the construction industry, in accordance with international standards, while meeting the essential requirements of client satisfaction and cost effectiveness.

MISSION

Our mission is to provide clients with high-quality services delivered on time and within budget. We aim to achieve this by developing a skilled, dedicated, educated, and performance-oriented workforce focused on the ultimate goal of organizational success.

CORE VALUES

Our fundamental values serve as the guiding principles for all internal and external dealings. These values form the uncompromising foundation upon which our mission and business relationships are built.

Reliability: The ability to fulfill our promises without exception.

Integrity: The courage to distinguish and uphold what is right.

Accountability: The strength to take responsibility for our actions and decisions.

COMPETITIVE ADVANTAGE

Our competitive advantage comes from our commitment to exceeding client expectations, recruiting qualified and capable personnel, and applying a decentralized operating approach. Hateen Group focuses on treating each project as an independent operation, enabling the development of project-specific infrastructure and resources that support efficient and uninterrupted execution.

A carefully planned programme led by experienced industry professionals, supported by a dedicated and skilled workforce, enables the Group to maintain high performance standards. Customer satisfaction remains the central outcome of our planning, execution, and continuous improvement efforts.

SCOPE OF WORKS

Hateen Group's scope of works includes the following services:

1. Electrical design and installation in accordance with applicable DEWA, SEWA, FEWA, and ADEWA regulations, client requirements, and accepted workmanship standards.
2. HVAC design and installation in accordance with applicable authority regulations, client requirements, and quality workmanship standards.
3. Water supply and drainage design and installation in accordance with DEWA, SEWA, FEWA, ADEWA, and relevant municipality standards.
4. Complete design and installation of fire alarm and firefighting systems for commercial, residential, and industrial developments in accordance with Civil Defense requirements and international safety standards.
5. Design and installation of low-current systems, including CCTV, SMATV, IT systems, fiber-optic cabling, and copper-cable networks.
6. Design, supply, and installation of lighting systems appropriate to commercial, residential, luxury residential, and industrial developments.
7. Industrial automation and control-panel systems incorporating programmable logic controllers, relays, and associated control technologies.
8. Building waterproofing and thermal insulation works.
